The second section of the bill repeals the act [illegible] retiring and cancelling $4,000,000 greenbacks per month, and prohibits such retirement during the current year. A communication from the Postmaster General to the House states that 1,654 Postmasters were removed during the last recess of Congress, of whom 1,283 were for political [illegible].

A communication from the Secretary of the Treasury says the gross proceeds of the sales of captured and abandoned cotton have been $20,000,000. Add the sale of miscellaneous property, and we have a total of $34,353,000. The disbursements were $9,310,000. The balance is $25,000,000 of profit to the U S Government.

The House in evening further debated the Tax bill, on the proposition to take from the Secretary of the Treasury the authority to withdraw $4,000,000 of greenbacks monthly. Messrs. Bidwell, Henderson, and Higby voted aye. Mr. [illegible] was absent. Among others who voted aye were Messrs. Kasson, Maynard, Stevens, and Shellabarger. The bill, as it passed the House yesterday, consists of only six lines of manuscript, authorizing the issue of $100,000,000 legal tenders. It is doubtful whether the Senate will concur.

In the House, Mr. Stevens reported back the bill with amendments to the Senate amendments to the Civil Appropriation bill, and its striking out the appropriation for the daily Congressional Globe was on recommendation of the committee, non-concurred in. The amendments appropriating $40,000 to facilitate telegraphic communication between the Atlantic and Pacific States, and other [illegible] unimportant, were concurred in.

A large number of articles were added to the free list. An amendment was offered to strike out the income tax, but was lost, and the income tax remains 5 per cent. on the excess of $1 000.

A Senate joint resolution supplementary to that for representing the United States at the Paris Exposition, was considered and passed. It appropriates $90,000 in addition to $150 000 previously appropriated.

The House spent the greater portion of last evening on what is known as the Identity bill to protect officers and soldiers from prosecution for acts done in obedience to orders during the war.

The Tax bill drags itself slowly through the House in Committee of the Whole. The opinion gains ground that neither the Tax, Tariff or other important financial measures will pass this Congress.

WASHINGTON, Feb 23.—Mr. Conness introduced a joint resolution instructing the Secretary of State to obtain from the Colombian Government authority for the survey of an inter oceanic ship canal across the Isthmus of Darien, and ascertain the terms upon which the right of way can be obtained. Passed.

The Indian appropriation bill was taken up. Mr. Sherman opposed the whole Indian treaty system as a farce.

Mr. Williams moved an amendment, which was adopted, that the Sub Indian Agents having upwards of $1,000 salary be hereafter appointed by the advice and consent of the Senate.

Mr. Henderson moved that the appropriation for Indians in Arizona be raised to 10,000. After a lengthy discussion, the bill was referred.

The bill to establish Land Districts in Montana, Arizona, and Idaho, was passed. Adjourned.

The Senate, in Executive Session, confirmed Edward M. King, Consul to Canton, China.

The House in Committee of the Whole considered the Civil Appropriation bill. Mr. Price moved to add an appropriation of $20,000 for building a bridge at Rock Island, rejected. The sum of $15,000 was appropriated for a light house at Point Reyes, California.

An amendment providing for the election by the Senate of a Superintendent of Public buildings, to hold office four years to fill the place of the Commissioner of Buildings and to abolish the latter office. Passed.

The Committee rose, reported the bill, when the amendment for the Rock Island bridge was rejected. The bill passed.

The House also passed the bill making valid all acts of the President for the suppression of the rebellion.

The House adjourned.

WASHINGTON, Feb 25.—On Saturday night, just before adjournment, Mr Sherman, from the Finance Committee, reported the Compound Interest Funding bill, recommending non-concurrence in the House amendment and the adoption of the original Senate bill as a substitute.

Mr Nye, of Nevada, appeared in the Senate to-day, for the first time this session.

Mr Patterson presented a resolution from the Legislature of Tennessee, requesting him to resign, for having identified himself with the Democratic party. He said that, at a future day, he should vindicate himself. With the lights before him, he should not obey instructions.

Mr Wade called up the bill for the Government of Montana, and after some amendments, it passed. It defines the duty of the Legislature, abolishes distinction on account of color, defines the duties of the Judges of the Probate Courts and increases their salaries, etc. Among the amendments is one increasing the salaries of the Judges of Idaho.

The House bill to fix the compensation of officers of the revenue cutter service was passed.

Mr Sherman introduced a bill to consolidate the National debt in six per cent bonds, payable, principal and interest, in coin, subject to a tax not to exceed [blank] per cent. upon the principal. He did not intend to call up the bill this session, but merely to introduce and have it printed.

The bill to regulate the disposition of the proceeds of fines, penalties, and forfeitures incurred under the laws relative to customs, was passed and goes to the House.

Mr. Grimes introduced a bill to authorize the creation of a Board for the Survey of the Navy, which he asked to have printed and laid upon the table till called for next session.

The Senate elected John D. Defrees Public Printer under the late law, and then took up the Army Appropriation bill.

The Senate Committee on Foreign Affairs, to-day, acted on the nomination of Gen Dix as Minister to France. The vote stood 3 for and 3 against. The chances are that he will be rejected. The vote stood the same on the nomination of Hugh Ewing's nomination as Minister to the Hague.

The Bituminous Coal Company have agreed to a compromise of $1 25 a ton on that article. This is done in order, if possible, to save the Tariff bill.

Senator Chandler appealed to the Senate to-day to pass the Niagara Ship Canal bill. The motion was laid on the table—24 to 18. That kills it for this session.

The Senate passed the River and Harbor bill, with amendments, which goes to the House for concurrence.

Both Houses have agreed to the Conference reports on the Diplomatic and Military Academy bills, the former with a proviso that no money shall be paid to the Minister at Portugal, the latter with a proviso that no money shall be paid to Cadets appointed from the rebel States since the 1st of January, 1867, until represented in Congress.

Senator Wilson authorizes the statement that General Grant expressed to him the hope that the President would sign the Military Reconstruction bill, as the best thing possible.

The House bills introduced to establish a National School of Sciences, and to extend the rights and remedies of the Civil Rights bill to white citizens of Missouri, was referred.

Mr. Bromwell offered a resolution instructing the Committee of Ways and Means to enquire into the expediency of the issue of five per cent. bonds, to the amount of $500,000,000, payable, principal and interest, at such places in the country as the Secretary of the Treasury may designate, only in exchange for six per cent. bonds held in Europe. Rejected.

Mr Cullom offered a resolution directing the Judiciary Committee to report a bill making eight hours a legal day's work for Government employees, but withdrew it on Mr Wilson stating that he had already been instructed to report such a bill, but withheld it because it could not be considered by the House at present.

Mr. Hill offered a preamble and resolution relative to Mr Wentworth's resolution in regard to corrupt bargains with the President, directing such Committee to report to-morrow any evidence in its possession, and also requesting Mr Wentworth to present the newspaper paragraph upon which his resolution was founded.

Mr. Stevens, characterizing this (Mr Hill's) resolution as a most extraordinary one, moved to lay it on the table. The House refused, by a vote of 34 to 63, and the resolution was adopted.

The proposition to redeem coupons and interest notes by the issue of greenbacks will not be compromised in the Committee of Conference. The redemption of compound interest notes with greenbacks will, nevertheless, be opposed in the Senate, on the ground that the Treasury Department will be abundantly able to pay for the compound interest notes when due, without reference to a fresh issue of greenbacks. Mr McCulloch fully agrees with the House bill, which gives him discretionary power to issue no more greenbacks than he may deem necessary, instead of one hundred millions, as provided for in the last bill.

The House considered and finally recommitted the Fortification bill.

CHICAGO, Feb. 26.—The House last evening passed the Internal Tax bill, which, as amended, strikes out the tax on newspaper advertisements, leaving distillers' license and cotton tax unchanged, requires gas companies to pay their own taxes; taxes cigars of all kinds five dollars per thousand, taxes incomes five per cent on the excess of one thousand dollars, and taxes grape brandy the same as other brandy. Various other amendments make the aggregate reduction considerably less than was proposed by the Commissioner.

Mr. Morrill made a speech showing that the cotton tax produced fifteen millions, while from all other sources the rebel States produced last year only four and a half millions; which, distributed through ten States, would not pay the cost of collection.

The amendment abolishing the cotton tax was then amended—66 to 95.

Mr. Morrill's efforts, yesterday, to throw the Tariff bill at once into a Conference Committee produced a sensation—twenty members talking at a time. Mr Morrill appealed to the members saying that if this motion was lost the bill was inevitably lost.

Speaker Colfax ruled that if the bill went to a Conference Committee in the shape suggested the Committee would have power to amend or alter any part of it. Two-thirds were required to suspend the rules, but not even a majority voted in the affirmative.

Mr. Morrill then announced that he would call up the Tariff bill to-day, [29th,] and press its consideration until disposed of.

In the House Mr. Wentworth reported that nothing had been discovered to sustain the charges of a corrupt bargain between the members and the President, and asked to be discharged from its further consideration. Granted. Mr Wentworth said the information was derived from reporters and the editorial inference. Mr Glossbrenner made a factious statement, to the same purport.

The House rejected the resolution removing the Naval Academy from Annapolis to New London.

The House then went into Committee of the Whole on the Tariff.

There was active caucusing all last evening, to conciliate the conflicting interests of coal, salt, and leather so that after one amendment in Committee of the Whole, to-day the bill may be reported to the House, and confirmation asked; but it is of doubtful success.

WASHINGTON, February 27.—On motion of Mr Stevens proposals are to be received for renting the restaurant attached to the House, and the proceeds are to go to the Soldiers' and Sailors' Home.

The Naval Appropriation bill was taken up.

Mr. Hasson, from the Committee on Uniform Coinage, asked leave to report a bill to establish assay offices at Denver, Colorado; Charlotte, N. C., and Dahlonega, Ga., but Mr. Ancona objected.

The House went into Committee of the Whole on the Naval Appropriation bill.

The report of the Conference Committee on the bill to quiet land titles in California towns was agreed to.

The House went into Committee of the Whole on the Tariff bill.

The Senate bill relative to the Navy passed with amendments, reducing the number of cadets at large from twenty five to ten.

The act to amend the act for the removal of certain cases from State Courts passed.

The evening session, to-day, was assigned to the consideration of bills from the Military Committee.

The Senate insisted upon the bill for funding the compound interest notes, as previously telegraphed.

Mr. Sherman, for the Finance Committee, offered the following amendment: That no National Bank shall receive or pay interest on any portion of its reserve when deposited in any other National Bank, and compound interest notes shall not be held as part of their reserve after the 1st of July next. This was agreed to, and the bill, as amended, passed.

### Washington News

CHICAGO Feb. 21.—A Washington special says that the most important feature of yesterday's proceedings in Congress was Reverdy Johnson's speech on Reconstruction. He would vote for the bill not because he liked it but because he believed it the best terms the South could get.

Considerable amusement has been created by the Congressional Temperance Society, which was joined by Saulsbury, Yates, Wentworth, and all the other hard drinkers except McDougall. Saulsbury appeared drunk in the Senate Chamber yesterday, lit his cigar, and cocked himself up as if to take his ease in his inn. Vice President Foster directed him sharply to extinguish his cigar, which he did promptly. It is proposed to take some more formal action.

The rumors about the new Cabinet are blowing over, and the members who were tampered with in the late compromise negotiations generally feel ashamed of themselves. The President denies that he invited the members to the White House for conference, or even knew they were coming, and positively declares he did not concede one such. They on the other hand aver that it was by his invitation they went.

Mr McCulloch will shortly issue a notice that the Department is ready to convert seven thirties due next August into five-twenties, paying interest. This will be done in order that the banks shall not allow all to be presented at one time.

The President has named Wm. G. Moore, now his Private Secretary, Paymaster; also, Justus Steinberger, of Oregon, Paymaster.

The Nebraska Senators have decided not to take their seats until the Fortieth Congress, even if the President sooner issues his proclamation, because if now sworn in two years will be deducted from their official term.

The Internal Revenue receipts are averaging less than half a million daily, and show a general depression throughout the country.

NEW YORK, Feb 22.—The Times' special says the Judiciary Committee will visit Surratt in jail, and take such testimony as he may voluntarily give regarding the complicity of Jeff Davis. Surratt's counsel advises him to give no testimony on that or any other subject.

The Ways and Means Committee have made 250 amendments to the Tariff bill—all require the action of both Houses.

The Special Committee to investigate the discharge of four South Carolinians after conviction for the murder of Union soldiers, report the discharge unjustifiable.

The meeting yesterday between Surratt and his sister was extremely affecting. The sister encouraged her brother to keep a stout heart, but the conversation was chiefly on domestic affairs. The Judiciary Committee have not yet examined him concerning the complicity of Jeff Davis, nor are they likely to do so until it is known what will be the proceedings against him.

NEW YORK, Feb. 23.—The Tribune's special says a protracted session of the Cabinet was held yesterday to consider the Reconstruction bill. The President would sign it but for the section dividing the States into military districts. The other features are not so objectionable, although he would have preferred the Blaine amendment. It is understood the Cabinet takes nearly the same view.

NEW YORK, Feb 23—6.40 P. M.—A statement before the Ways and Means Committee from the Secretary of the Interior shows that twenty four million dollars of bonds will be required to complete the Union Pacific Railroad to the junction with the Central Pacific, and to complete the total number of miles of other railroads requiring Government aid nearly twenty million dollars worth of bonds will be necessary.

A special to the *World* says the final levee of the President was held last evening. The jam was so great that an extra detail of police was telegraphed for to rescue men women and children from their perilous situation. It was the largest reception that was ever witnessed at the White House.

Two hundred and fifty leading Democrats of this city have signed a request to the President to approve the Reconstruction bill.

WASHINGTON, Feb 23.—The Committee who have been investigating the distillery frauds, to-day, show that the frauds have been perpetrated so skillfully as almost to defy the utmost power of the law. They present some very strong arguments in favor of the reduction of the tax.

NEW YORK, Feb 23.—The Times' leader, to-day, says it is well understood that bills are in preparation for an early introduction into the next Congress, providing for a sweeping confiscation of rebel property, for distributing the enfranchised slaves, for paying the claims of loyal men for property destroyed, and for giving the farms to Northern soldiers, as the only effectual mode of reconstructing Southern society. The Supreme Court will be powerless to prevent such a measure, four Judges being favorable, and one, if not two, of the opposite Judges will probably not sit again, on account of extreme age and illness.

The bill in relation to the Government of Montana, as amended and passed, prohibits the Legislative Assemblies of the several Territories from granting private charters and special privileges, but allows associations to be formed under general incorporation acts, for mining, manufacturing, etc. The bill increases the salaries of the Territorial officers of Montana and Idaho. His handcuffs were replaced, and the prisoner was remanded to jail. No excitement was manifested during his presence in the Court. No day is fixed for his trial, but it is thought it will be in March.

[DISPATCHES TO THE OREGONIAN.]

DATES TO MARCH 6.

### Congressional.

WASHINGTON March 4.—Both branches continued session during yesterday, the Senate being chiefly occupied with executive business. Four or five hundred appointments were considered. The appointment of Senator Cowan as Minister to Austria was tabled. Both branches passed the bill to aid in the construction of the Stockton and Copperopolis Railroad. The Committee of Conference on the tax bill reported the tax on cotton, two and a half cents and on grape brandy one dollar per gallon. The report was accepted.

The Speaker submitted a communication from Mr King, Minister to Rome that there was no truth in the statement that the American chapel had been removed outside of the city wall of Rome.

The President of the Senate presented a communication containing a statement of the Secretary of the Treasury that the total amount received from various sources of captured and abandoned property reached $34,000,000, of which nearly $25,000,000 remain. The total amount restored upon satisfactory proof was $2,330,000.

Both branches passed the bill authorizing mail steamship service between the U. S. and the Sandwich Islands. The Sub Committee on Conference on the act for the organization of land districts in the territories, recommended that the House recede from its disagreement to the Senate and which excluded Utah from the provisions of the bill. Agreed to and the bill passed.

The House Judiciary Committee reported on the Impeachment, that a large number of witnesses had been examined and a mass of evidence established. Everything had been done which could be to reach a conclusion but the investigation covers a broad field and entertains many novel intricacies and important questions and involves a multitude of facts, while many witnesses live distant from the capital owing to which, the Committee in view of the magnitude of the interests involved has not concluded its labors and therefore is not prepared to submit a definite report. The Committee not having fully investigated all the charges against the President of the U. S., it is deemed inexpedient to submit any conclusions beyond the statement that sufficient testimony has been brought to its notice to justify and demand a further progress of the investigation. The report is signed by all the Committee except Rogers, who says there is not one particle of evidence to sustain any of the charges of the Committee on the alleged grounds.

### The Reconstruction Veto.

CHICAGO, March 3.—The President's veto message on the Reconstruction bill sums up his reasons as follows:

The bill places all the people of ten States under the absolute dominion of the military, and he undertakes to give reason by which his course is justified. It declares that there exists in these States no legal government and no adequate protection for life and property, and asserts that there is a necessity for enforcing peace and good order within their limits. It is true as a matter of fact and not denied that the States in question have each an actual government with all the powers—executive, judicial and legislative—which properly belong to free States. They are organized like the other States of the Union, and like them make, administer and execute the laws which concern their domestic affairs. To pronounce the supreme law making the power of an established State illegal is itself unlawful. All information I have convinces me that the mass of the Southern people and those who control their acts, while they entertain different views on the question of Federal policy, are united in the effort to re-organize their society on the basis of peace and to restore national prosperity as rapidly and completely as circumstances will permit. The President then concludes as follows:

The Constitution, in its whole integrity throughout the length and breadth of the land is the best of all compromises. Besides, our duties do not, in my judgment, leave us any choice between that and another. I believe that it contains that remedy so much needed, and if the co-ordinate branches of the Government would unite upon its provisions they would be found to be broad enough and strong enough to sustain in time of peace the nation which they brought safely through the ordeal of a protracted war. Among the most sacred guarantees of that instrument are those which declare that each State shall have at least one representative, and that no State, without its consent, shall be deprived of equal suffrage in the Senate.

### A Congressional Victory

CHICAGO, March 3.—Both the vetoed bills passed over the veto. The Reconstruction bill passed the House by 135 to 47, and the Senate by 28 to 10. The Senate passed the tenure of office bill by 35 to 11, and the House passed it by 131 to 36. Both of these bills contain a definition of what constitutes a misdemeanor.

When the Senate received the Message of the President, Reverdy Johnson took the floor and made a speech. He announced his determination to vote for the bill against the veto, and said if the President would not humble his pride to meet public opinion, he, Reverdy Johnson, could. The declaration caused a decided sensation, whereupon Johnson repeated it.

Buckalew of Pennsylvania, made a reply and was answered more strongly than before. Then at 10 o'clock, Garrett Davis, of Kentucky, took the floor, and to the surprise of everybody, only occupied twenty minutes, after which the vote was taken.

The House had previously passed the Reconstruction bill, which originated in that body, and now by the Senate vote, became the law of the land.

When this vote of the Reconstruction bill appeared in the House, Eldridge, of Wisconsin said his side would not quarrel with the majority. Finck and Leblond of Ohio disclaimed against such an arrangement and raised a point of order against the speaker, who said that neither of them had voted on the question. The speaker was sustained by 127 to 4, the latter being Harding, Shanklin Trumbull and Ward, of Kentucky. At 10 o'clock P. M the tenure of office bill had passed both branches without debate. The general opinion is that the 39th Congress has won and that the 40th has the key to the position.

### Organization of the Fortieth Congress.

WASHINGTON, March 4.—The Congress was called to order at 12:00 P. M. In the Senate, after prayer, the first business was qualification of new Senators, including Thayer and Tipton of Nebraska. Thayer drew the term ending 1871, and Tipton the term ending 1869.

In the House, after the confusion had subsided, McPherson the Clerk, called the roll. Wilson, of Iowa, moved that the House proceed to elect a Speaker. Brooks, of New York arose, and after a speech in which he denounced the organization of the House in the absence of 17 States as a revolutionary proceeding, he presented a written protest against it on the part of the minority. The protest was not received and the House proceeded to the election of Speaker. Schuyler Colfax was elected.

WASHINGTON, March 5.—In the Senate, Trumbull of Illinois, from the committee appointed to wait upon the President, reported that it had performed that duty and had been informed by the President that he had no communication to make at present.

Stewart of Nevada introduced a bill to reorganize the Judiciary of the United States. Ordered to lie on the table until the formation of the committee shall be completed. It is the same bill which was offered at the session just closed, with verbal alteration. Adjourned.

In the House, on motion of Price of Iowa, a resolution relative to the drawing of seats was adopted. The seats of Washburne of Illinois and Stevens of Pennsylvania were reserved for them.

Dawes of Massachusetts reported from the committee appointed to wait upon the President, that he had no communication to make at present.

The rules were suspended and the following officers were declared elected and sworn in: N. G. Ordway, Sergeant-at-Arms; Charles E. Lippincott Door keeper, W. S. King Postmaster. A resolution was offered directing the Clerk of the House to place on the rolls the names of the Territorial Delegates whose credentials showed prima facie evidence that they were elected. It appeared that the two claimants from Colorado had certificates. The resolution was tabled and the papers of the two claimants were referred to the Committee on Elections. The Clerk then placed on the rolls the names of the other Delegates from the Territories. The Delegates from Idaho, Arizona and Dacotah took the oath. The papers in the contested cases of Burch and Van Horn of Missouri, Stewart of Maryland, and the Utah case were referred to the Committee on Elections. The drawing for seats followed after which Dr Boynton was elected Chaplain.

The speaker stated that if the House should adjourn Thursday the 7th, he would announce the committee on rules, mileage and election. He would not, however, for obvious reasons, appoint any other committees at present unless the House otherwise orders.

Eldridge (Wisconsin), inquired whether it was expected that the House was to legislate any length of time? The Speaker said he could give no information. Adjourned.

### Washington News

WASHINGTON, March 3.—The clerk had all the engrossing force at work but it would take twenty hours to engross the tariff bill and it would probably have to be signed to-morrow evening in open House and sent to the President.

WASHINGTON March 4.—The President and his Cabinet have been at the Capitol all this forenoon to attend to business.

The Senate at half past one had reopened its doors. Sherman, of Ohio called up the bill providing that the act of this session to increase the duty on wool shall go into effect ten days after its passage. It was amended by striking out 10 days and inserting 5 and passed. At 2 o'clock a recess was taken until 9. On reassembling the Conference Committee on joint resolutions to facilitate the settlement of accounts of disbursing officers, made a report which was adopted.

At 10 30 Vice President Foster delivered his valedictory and thereupon vacated the chair. Forney, Secretary of the Senate assumed the duties of President. On motion, the Senate proceeded to elect a President, and Senator Wade was chosen. Wade was escorted to the chair and returned thanks.

In the House the Senate bill releasing Denny & Webb of New York on the iron clad ship *Dunderberg* on his refunding the amount paid on contract passed. A variety of unimportant business was disposed of. A Joint resolution of thanks to Cyrus W. Field was passed. The Conference Committee on Indian Bureau bill reported that they were unable to agree and were discharged. Francis Thomas, of Maryland on judiciary committee made a report of testimony taken on the investigation of freedmen affairs in Maryland, and recommended that the matter be turned over to the 40th Congress.

On motion of Maynard of Tennessee, authority was given to chairmen of all committees to pursue same course. The hour of 12 having arrived the Speaker delivered a valedictory address.

The Tariff bill which the Senate passed was Bingham's wool bill which passed the House at the last session.

Both branches passed a law providing that volunteer officers and soldiers shall be credited with their former service on their re-enlistment in the regular service.

The Chicago *Times* of this morning suspects that the President's veto is as a shot fired at Congress has no more effect than a bombshell fired at an iron-clad because it simply makes a noise. The *Times* says "There is probably an end of the tariff question for some time to come. The wool interests having been provided for, there will be no further decrease of the tariff."

In the House, last night, Marquette, of Nebraska, took his seat. The Senators from Nebraska will take seats in the Fortieth Congress.

At midnight the House went into committee on the deficiency bill. The section appropriating $930,000 and to give a bond for $930,000 more to carry out the stipulations of the treaty with the Choctaw Indians, gave rise to a long discussion.

Messrs Stevens of Pa., Kasson of Iowa, Garfield of Ohio, and Farnsworth of Illinois, supported the appropriation and repelled the allegation of fraud.

Mr Henderson of Oregon, moved, at ten minutes past one, that the House take a recess.

The Speaker informed the House as his duty that unless the appropriation bills were reported back in this night session of the Committee of the Whole and passed by the House and sent to the Senate, passed by that body, then sent to a committee of conference reported by the committee and agreed to they would probably be lost unless the President should sign them without reading them.

WASHINGTON, March 4.—The Senate confirmed Chas. L. Russell as collector of Boston, and Polk A. Gilmore, P. M. at Chicago. Among the rejected is Frank McLaughlin, Postmaster of Philadelphia.

The only nominations made for speaker of the House were Schuyler Colfax and Samuel S. Marshall. The former received 127 votes, the latter 30.

In the course of his remarks in the House, James Brooks, of N. Y., said that if indications in the public press and elsewhere are to be realized, and if the process of impeachment is to go on, what can be more revolutionary. It is revolution and nothing but revolution, call it by whatever name you please. Brooks' protest was signed by himself and other members on that side of the House. It was received with silent contempt.

The President signed the army appropriation bill, but said I must call attention to the 2d section, which in certain cases virtually deprives the President of his constitutional functions as Commander-in chief of the army, and the sixth section, which denies to the States of the Union, their constitutional rights to protect themselves in any emergency by means of their militia. These provisions are out of place in an appropriation bill. I am compelled to defeat necessary appropriations if I withhold my signature. Pressed by these circumstances I feel constrained to return the bill with my signature, but protesting.

### Officers of the House.

WASHINGTON, March 4.—Very much interest is taken in the Republican caucus which was called to-night to nominate the remaining officers of the House. All the old officers were renominated except door keeper, for which Gen. Lippincott received 7 majority. B. G. Whiting, of California, will be confirmed as Indian Agent.

### Jobbery in the New York Custom House.

NEW YORK, March 3.—The New York Custom House report shows the most reprehensible conduct on the part of Collector Smythe. There appears to have been established what was called a general order of business which Smythe sold out, and that Van Bergen, Gen. F. Thompson, Senators Doolittle and Patterson and a Mrs Penny had interests in the business. Mr Smythe informed Mr Humphreys that he had obtained $40,000 per annum for this business from Messrs Miller & Conger. On Mr Humphreys remonstrating against being trifled with in this manner, Smythe offered him a gratuity of $3,000 out of this. It was shown that the $40,000 was divided as follows: To Geo. F. Thompson, late of the *Daily News*, $5,000; to Senators Doolittle and Patterson, $5,000 each; to Imbree, Deputy Collector, $2,000; to Humphreys, by him at once rejected, $3,000; to Brown, Private Secretary of the Collector and by him rejected, $2,000; to the Political Fund, 10,000; To Mrs. Penny, known as the "Washington Woman" $3,000; to Van Bergen, $5,000. This makes up the $40,000 so as to correspond with Smythe's oft repeated assertions that he was not to have a dollar of it; thus showing, however, that it left him the sole owner of $10,000.

The *Post's* Washington special dispatch states that the extremists of the House will try to-morrow to raise a special committee on impeachment of the President, with Butler as chairman instead of Wilson, of Iowa. They represented themselves as Confederates desirous of pricing wines. Again they are Canadians, Englishmen etc.

In further illustration of the questionable practices of Farwell, the Swiss Consul General produced before the Committee certain papers wherein it was alleged that Farwell had himself four gold watches, as samples of the seizures he had instigated in California.

The majority organized a new meeting and passed new resolutions counselling quiet submission to the bill but characterizing it as harsh and unjust, expressing approval of the noble course of President Johnson, asserting that the honor and manhood of Southern people were left, and announcing as a sense of the meeting that the freedom of the people must not be bartered away for provisions of Sherman's bill. The resolution recommended that the Governors of the Southern States take steps to test the constitutionality of the bill in the Supreme Court.

The report of the committee on the frauds in the New York Custom House fills two pages and a half of the *Times*, and discloses the most scandalous and dishonest conduct of Collector Smythe. The Committee find that soon after Smythe's appointment he sold the office of keeper of General Order Store for $40,000 a year, of which Senators Patterson and Doolittle each were to have $5,000. Smythe afterwards re-sold it for $50,000 to H. C. Johnson who caused the charges against the importers to be illegally raised in receiving 35 per cent. on it, of which he gave Smythe 5 per cent. The report of the Committee has made very damaging disclosures regarding W. B. Farwell, the Government Detective. The pay roll of the Custom House expenses have been increased $250,000 and $350,000 a year. The Committee says that prudence and decency require the immediate removal of Smythe from office.

The reports concerning the discovery and arrest of Surratt concludes that the testimony furnished to the Secretary of State and Secretary of War, does not excuse the great delay in attempting his arrest. They say that due diligence was not exercised by the Executive department.

They are marching on Balize with such steady progress that the worst consequences are feared. Dispatches are forwarded to the Consul General of England at Havana asking for the immediate support of a man-of-war from that station, but as there was no such vessel within easy communication, it is said the Consul of the United States in Cuba was about to send an American gun boat to aid the English. This Anglo-Indian affair assumes a serious aspect.

### Diversified Industry.

The objects of labor in Oregon must become more varied and numerous in order that the State may flourish in a degree commensurate with the resources and wealth which nature has given her. Some new branches of industry are now opening, and this progress presages a better state of things for our future. But the industries of the country are not diversified to the extent they ought to be to bring the greatest profit. Our farmers, for example, usually expend all their time, energy and capital in a single branch of their business, as in raising wheat. Now they might with profit to themselves and gain to the country, vary their employments. The results of confining husbandry within its present narrow limits have been apparent in this State for years. Oregon has imported immense quantities of produce which ought to have been grown or produced upon her own farms. Nearly all sorts of farm produce, with the exception of breadstuffs, have been brought here from abroad in large quantities at various times within the last five years. This ought not to be so. A proper diversification of the pursuits of husbandry would make the life of the farmer less wearisome and unattractive, and would add greatly to his gains. It would also contribute immensely to the general prosperity of the State. As a general rule, the farmer who varies his employments succeeds best financially, and in every other way.

A diversification of industrial pursuits creates a mutual dependence among all classes of population and stimulates the activities of all. The production of wool by those who devote their attention to sheep husbandry, tends to the establishment of manufactories, which in turn both give employment to labor and support the farming and mercantile interests. The same remarks apply to other branches of industry. Where one is established it prepares the way for another. The development of our mines of iron, coal, cinnabar, etc.,—not to speak of the precious metals—will open other boundless fields of wealth. It is this diversity of pursuits that has made the New England States what they are now. Their lands were originally poor, yet so well has everything been turned to account that this is now one of the richest sections of the Union. The people are employed in the factories, in the workshops, in the fields. Every department of labor is represented. Every advantage which nature has given them their industry has improved. Their forests are laid under contribution. Their mountains of stone are made to add to their wealth. Every brook and every river drives machinery for manufacturing. Intelligent labor has made those States great. A diversified industry has, in spite of natural disadvantages, brought them up to their present height of prosperity. The profits of their labor are, under their system, retained at home. The people are mutually benefitted by their labor, and the result is, that New England, naturally poor, has grown rich. What diversified industry has done for that section, it will do for the Pacific States. With greater natural advantages than New England possesses, it will be the fault of our people if they do not eventually attain a condition of prosperity equal to or greater than New England has achieved.

### A Rebel on Rebels' Rights.

Of all the witnesses who were summoned from the South to give evidence before the Reconstruction Committee, Judge Baldwin of Virginia was probably the only really honest and candid one. He was a member of the Secession Convention of his State, and frankly acknowledged that he was a rebel. The whole doctrine of the right of a State or any number of States to secede peaceably from the Union he scouted as utterly absurd. The Southern movement in his opinion was a rebellion, and he declared that if he were sitting as a juror on his own case he would require no instructions from the judge to decide that he ought to be hanged. He went into the rebellion as a rebel, with his eyes wide open, to take the consequences. Of course if they succeeded it would all be right; but if they failed he expected, as he himself expressed it, "to have a hard road to travel." He "expected to be hanged, and all he had saved over and above that, he considered as clear profit."

This is the most sensible view of the case ever taken by any prominent rebel. Every statement here made is consistent both with law and with common sense. The Southern movement was an attempt to revolutionize the Government,—to overthrow the system on which it was founded. This attempt was treason. The legitimate consequence of the act was the forfeiture of all rights under the Government. And all that the leaders of the movement have saved over and above hanging, may well be considered as "clear profit,"—as so much gained beyond what they had any right to expect or demand.

That it would have been good policy to hang all who were prominently engaged in the rebellion, we shall not assert. To execute a very large number of them would have been the very reverse of good policy. But the *right* to hang them belonged to the Government; and if it forebore to use it, the reason for such forbearance rested on very different considerations from a want of lawful and rightful power to do it. But because the Government did not assert its right, because it chose a course more consistent with good policy than that of hanging all traitors, there are many who assert that it never had the right to impose any penalty on the greatest or the least of them. This was not the way the rebels themselves understood it at the close of the rebellion. They expected punishment. They had gone into the business "with their eyes wide open." So well aware were they of the legitimate consequences of of what they had done, that most of the leaders who had not been included in the surrender of the rebel armies, hastened, or prepared to hasten out of the country. The greater number of those who departed, having learned that the Government had adopted a different policy from what they expected, have since returned.

This view of the case shows the utter absurdity of the causeless declamation which is heard on all sides about the "rights" of those who were engaged in the rebellion. They are entitled to have just what rights the Government may choose to give them, and nothing more.

The New York *World* in a recent article expresses its disapprobation of the course of the President in severe terms. "The Philadelphia Convention, last summer," it says, "was a device of the President's to avoid giving the moral support of his Administration to the Democratic party. Neither that Convention, nor his speech-making tour in support of it, was of the slightest use to us, however well intended. A pilgrimage in aid of the Democratic party with William H. Seward as associate spokesman, was a little too grotesque for this earnest epoch. President Johnson has done nothing for the Democratic party, and as a party it owes him no gratitude." Yet last summer the *World* declared that it "approved of President Johnson's policy, his speeches, his invective, and in short, everything that was his." The Democratic party has been hardly less cruelly deceived in this man than those who elected him have been.

The Lewiston *Journal* estimates that within the boundaries of the proposed new Territory of Columbia, comprising Northern Idaho and a portion of Washington, there are above one million acres of arable land.

Philadelphia is said to contain more Methodists than any city in the world.

[DISPATCHES TO THE OREGONIAN.]

### DATES TO MARCH 6.

### The New Tariff.—The Fortieth Congress.

NEW YORK, March 6.—The wool tariff, which became a law on Sunday, requires the Secretary of the Treasury to select standard samples of the wool named, and deposit the same in the various Custom Houses.

The *Times'* special says it is now ascertained that the wool growers and manufacturers are not required to furnish samples to the Secretary of the Treasury, and he will be obliged to send to Europe for standards of some of the qualities. It may be two or three months before they are procured. If the law is interpreted literally no wools whatever can pass the Custom Houses until this provision is completed, and it will occasion much trouble. The law is so obscurely drawn that the Department is not able to determine whether it affects goods in bond or not. The Secretary will probably rule that it does not affect goods in bond.

The *Times'* special says the disposition of both Houses grows stronger to make the session very brief. There is some talk of adjournment on Friday or Monday next. The opinion is quite general in favor of re-assembling in September or October.

The *Tribune's* special says the Republican caucus Monday made a partial list of standing committees for the Fortieth Congress. Sumner remains as chairman of the Committee on Foreign Affairs. Fessenden has been relieved from the Finance Committee and placed on the Committee on Foreign Relations and Public Lands. Sherman will be Chairman of the Finance Committee. Stewart goes off the Judiciary Committee and becomes Chairman of the Agricultural Committee. Williams goes on the Finance Committee. Corbett goes on the Committee on Commerce. Yates will be Chairman of the Committee on Territories. Howard still continues on the Pacific Railroad Committee, of which Morgan will be Chairman. Williams will be Chairman of the Committee on Public Land Claims. Thayer will be on the Committee on Indian Affairs. Nye succeeds Yates as Chairman of the Committee on Revolutionary Pensions. It is proposed to divide the Finance Committee and create a new Committee on Appropriations with Fessenden as Chairman.

Whalebone closed dull and lower. Arctic whalebone is held at 90@95c., at retail. Wool is unsettled under the influence of the new tariff. Fine wool is held at 5 to 7c. higher; but manufacturers are not disposed to purchase, owing to the depressed condition of the market for goods. Twenty thousand pounds of California wool have been sold at 28@32c. California freights are dull; cordage is firmer. A private dispatch received in this city states that gold closed yesterday at 130.

### FROM THE NORTH.

VICTORIA, March 5.—Sloop *Gen. Havelock*, from New Brighton, and bound for Victoria with a load of farm produce, ran on Ten Mile Point, a short distance beyond this place, at nine o'clock on Sunday night, and went to pieces. The crew clung to the pilot house and floated ashore, where they traveled about all night in the woods. The night being one of the most inclement of the season, the men suffered severely.

News of the most cheering character was received here yesterday from the Cariboo mines. Several rich strikes have recently been made. There is every indication of a very prosperous season.

The Government has offered a premium of $5,000 for the first quartz mill erected in British Columbia.

The steamer *New World* arrived here last night.

A heavy gale of wind from the east prevailed on Sunday night. The *Silas Greenman*, from San Francisco for Nanaimo narrowly escaped going on the rocks at Cordova Bay, ten miles from here. From the American side we learn that the American ship *Mary Glover* is ashore at Port Discovery and is badly injured. The bark *Iconium*, from San Francisco, is ashore at Point-No-Point, and the bark *Washington* is high and dry on Dungeness Spit. The United States Revenue Cutter *Lincoln* is endeavoring to tow the last named vessel off. All the vessels were driven ashore Sunday night.

VICTORIA, March 6.—The store of Joseph Williams was broken into last night and robbed of about three hundred dollars in greenbacks and a small amount of jewelry and other goods.

The bark *Iconium*, which went ashore in the gale on Sunday evening, was towed off by the steamer *Libby*, this morning, and brought to this port uninjured.

NEW WESTMINSTER, March 6.—H. B. M. S. S. *Forward*, arrived here to-day from Victoria.

The Council is engaged in a revision of customs tariff.

News from Cariboo is very encouraging. The *Sentinel* says never since the discovery of Cariboo, did prospects look better than they do at present. The names of 15 or 20 companies are given as making wages and more than wages. The stock in several companies has risen considerably during the winter. The prospects for a good season's yield are bright, and miners are already beginning to go up country.

From Big Bend there is nothing later; but the last accounts from that district are very good. The coming summer is looked forward to with confidence as one of prosperity throughout the colony. The weather is clear and cold. The river is blocked with ice a few miles above here and navigation will probably be delayed.

## STATE ITEMS.

Several persons are buying up cattle in Marion county with the intention of driving them to Eastern Oregon.

Professor E. P. Henderson, says the *Unionist*, is now conducting a school at Eugene City. The Professor was some years ago President of Columbia College, situated at Eugene City, which institution died after the Professor left it, in the vain endeavor to find a democrat capable of taking charge of it. The democratic directors did find a real live Virginian and employed him, but a grand jury being about to be called together in that county, the chiv left without saying a word to the stockholders and owners of scholarships. Who owns scholarships in Columbia College now? Did the pro-slavery directors refund the money paid on them?

The project of an Agricultural Aid Society is broached in California. The idea is to loan men of small means, but who yet have not enough to establish themselves in the business of farming, a sufficient sum to enable them to make a commencement. After the first crop is harvested the borrower would be required to pay the interest on the sum advanced by the Society. At the end of the second year he would be required to begin repaying the principal by small installments. It is argued that such a Society would enable many persons to avail themselves of the benefits of the Homestead Law who are now deterred from doing so lest they might not be able to obtain immediate returns for the support of their families. The land would afford security to the Society for the money advanced to the occupant.

A recent decree of the Brazilian Government opens the great river Amazon to the trade of all nations. It is computed that the valleys of this great stream and its tributaries contain not less than 2,500,000 square miles. Therefore the valley of the Amazon is larger by more than a million square miles than the valley of the Mississippi. At no distant day this great South American valley will be the seat of a populous and powerful empire.

**FAILED TO AGREE.**—The jury in the late murder case failed to agree, and consequently were discharged, but the verdict of all who purchase goods at KOHN & FISHEL'S clothing store, No. 111 Front street, is arrived at with the utmost unanimity, which is, that they invariably get the best articles for the least money.

**NEW ARRANGEMENT.**—THE OLD BUCHTEL & CARDWELL PHOTOGRAPH GALLERY, 89 First Street, has passed into the hands of JOSEPH BUCHTEL, Proprietor and Operator, who, having just returned from San Francisco, with ALL THE LATE IMPROVEMENTS, is prepared to take every style of picture known to the art.

## Miscellaneous.

### SAN FRANCISCO ASSAYING AND REFINING WORKS.

No. 416 Montgomery Street,

(*Successors to Kellogg, Hewston & Company.*)

CAPITAL STOCK, $1,000,000!

Directors:

JOHN PARROTT, CHAS. E. McLANE,
WM. C. RALSTON, A. HAYWARD,
LOUIS A. GARNETT.

LOUIS A. GARNETT..........President and Manager.
JOHN HEWSTON, JR..........Chemist and Superintendent.

THIS COMPANY HAVING GREATLY enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion.

Their charges hereafter will be as follows:

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS.

One-eighth of one per cent. (heretofore a quarter) for all amounts over $1,000, and two dollars for any smaller sum. Returns made in twenty-four hours.

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS.

Two dollars for the gold contained, up to $1,000, and one-eighth of one per cent. for all amounts over that sum, and one per cent. on the silver contained. Returns made in twenty-four hours.

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS.

On bullion under 300 parts gold, 2 cents per ounce.

On bullion from 300½@600 parts gold, 4 cents per ounce.

On bullion from 600½@750 parts gold, 6 cents per ounce.

On bullion from 750½@949½ parts gold, 8 cents per ounce.

Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

FOR COINING GOLD.

This charge will be the same as at the Mint—a half of one per cent.—and which is paid by us to that institution. But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

RETURNS IN COIN IN FORTY-EIGHT HOURS.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.

Gold bars of other Assayers, in good standing, will be cashed by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co.'s Express.

CHARGES AT U. S. BRANCH MINT.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that institution:

For refining bullion under 300 parts gold, 3 cents per ounce.

For refining bullion from 300½@600 parts gold, 5 cents per ounce.

For refining bullion from 600½@750 parts gold, 7 cents per ounce.

For refining bullion from 750½@830 parts gold, 11 cents per ounce.

For refining bullion from 830½@949½ parts gold, 14 cents per ounce.

The charge for coinage is half of one per cent., and the charge for making fine silver bars, the same.

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ⅛ of one per cent.—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage:

850 par to equal Mint return, at refining charge of 14 cents.

845 par to equal Mint return, at refining charge of 14 cents.

865 par to equal San Francisco A. & R. Works return, at refining charge of 8 cents. mh1d?m

INFORMATION WANTED.—A young man named C E Stone started from Walla Walla on the 16th day of last December for Salem Oregon. On the 27th he arrived at the Dalles and registered his name at one of the hotels since which time no trace of him can be found by his friends. His father, Wm Stone, lives near Salem and any information respecting his son should be addressed to him.

BUOYS FOR THE COLUMBIA RIVER.—The following is the text of a letter received last evening from Senator Corbett, dated Washington, Jan 30th together with a copy of instructions issued from the office of the Light House Board Jan 25th, to Commander J C Carter U S N Light House Inspector San Francisco.

When I left Oregon, I was requested to urge the replacing of the buoys at the mouth of the Columbia, and at Wasti's Island channel on the Columbia river above Astoria. I have called upon the Treasury Department and had three different interviews upon the subject. To-day I received the accompanying letter from the Lighthouse Board, whose business it is to see that these buoys are kept in place. By giving publicity to the same, it will reassure our captains and pilots that they are not forgot ten. I am also informed that a Lighthouse will be erected at Cape Mendocino as soon as possible. The board have also asked for an appropriation for a Lighthouse at Cape Blanco. That request is now before the committee on appropriations.

The following is the letter of instructions referred to, dated Washington Jan 25 1867.

Sir: The importance of replacing the buoys in Columbia river has been several times urged upon the Board but action has been deferred in the hope that the services of the steam tender Shubrick would soon be available for this duty. Recent information from San Francisco has rendered it apparent that the probability of using the vessel is quite remote. You are therefore instructed to take immediate steps to re-buoy this river and bar, send ing the buoys and appurtenances from the depot, and if necessary chartering a suitable vessel for the duty. A local pilot should be employed to mark the proper positions for these buoys, and you will give your personal attention to having them securely placed. Very Respectfully,

W B SHUBRICK Chairman

FELIX O'BYRNE.—This remarkable, versatile little Irishman, by means of his eventful career in San Francisco last year furnished the various papers of this coast with a vast amount of pabulum transmitted to them of course, by telegraph. He was a costly cuss. At the regular rates for telegraphing he cost this office—well say anything less than sixteen hundred dollars. We are sure the [illegible] was over four[illegible] dollars. Felix was then a [illegible] for one of the California volunteer regiments, ran through various courts military and civil, jumping bottom and finally cut stick for the Atlantic States. The Pacific coast was too confined a field for the operations of the felicitous Felix. An exchange has the following notice of the active little fellow and it is probably the last we shall see of him for a while. We are prepared to bid adieu to Felix without a groan or a tear. "Felix O'Byrne is running the gauntlet of the New York petty criminal courts on multitudinous charges of swindling. He has traveled under all sorts of titles, and obtained money by all sorts of dodges. As Colonel commanding at Governor's Island, he obtained small sums [illegible] of the forts in the harbor of San Francisco, he done a good business; and as general Government Agent he put money in his purse. But Felix is corralled and, the law this time, will doubtless dispose of him without the slight consideration for his past titles, dignities and pr[illegible]

A BEAUTIFUL ROMANCE SPOILED.—The North American Review of a late date quotes what purports to be an extract from a letter written by John Smith, which knocks the romance connected with himself and the squaw Pocahontas higher than Gilderoy's kite. Whoever has acquaintance with the Indians in real life will be quite ready to exchange the imaginative and poetic picture of Pocahontas which they have been wont to look upon for the more natural and characteristic one furnished by John Smith's letter. Here is what he says, "Pocahontas a well [illegible] of but wanton young girls. Powhatan's daughter, sometimes resorting to our fort, of the age then of eleven or twelve yeares, would get the boyes forth with her into the market place, and make them wheels, falling on their hands, turning their heeles upwards, whome she would followe and wheele so herselfe naked as she was all the fort over."

[illegible] AT SEW IN THE CAT[illegible]—An oblong or two ago, a bright little girl of less than six years, was being [illegible] as to her biblical knowledge, by a party of ladies and [illegible] en. The child was very animated and smart and evinced considerable information derived from [illegible] reading. Among other questions propounded, "Upon what did St. John live while in the [illegible]" The little girl had read the story of his [illegible] honey but not being able instantly to recall [illegible] after a moment of childish reflection [illegible] and confidence, replied, "Bugs and [illegible]" This upset the gravity of the company and [illegible] to the catechism.

CIRCUIT COURT—SHATTUCK, JUDGE.—In the Circuit Court, [illegible], March 6th, the following proceedings were had.

[illegible] vs. J W Gates; submitted to the jury.

State of Oregon vs. James Simmons indicted for larceny of goods from the store of Shelby, verdict of jury, "not guilty," and defend nt discharged.

Mary L. Hall vs John R. Hall; divorce granted and plaintiff [illegible] the custody of child.

William R Hoffman vs. Delia Dyschneider, administratrix of estate of Jos Dyschneider, dec'd [illegible] tried before H. C. Coulson.

[illegible] vs J H. Neyce; action on a bill of [illegible] for plaintiff for $316,60.

COUNTY [illegible] WASQUAM, JUDGE.—The following proceedings were had in this court on Wednesday, March 6th.

[illegible] was appointed administrator of the estate of [illegible], deceased.

In the matter of the location of the county road known as the [illegible] road, petition and report of viewers, etc. laid on time.

In the matter of Guardianship of Margaret and G L. [illegible], minor heirs, P G Stewart, Guardian, confirms [illegible] of real estate.

In the matter of the estate of Buel Woodward, dec'd, C F [illegible], administrator, de bonis non; final account of [illegible] allowed and administrator discharged.

SHADE TREES.—M [illegible], Simmons & Co. yesterday commenced [illegible] of a row of maple shade trees around the court house block. As this is the proper season for [illegible] we suggest to the County Judge and Commissioners the propriety of providing at this session for the [illegible] planting of such shade and ornamental trees on the [illegible] as may be contemplated for this year. The people of the county are probably very willing that a liberal expenditure of money shall be made in this [illegible].

THE SAFETY MATCH.—We have found a bran new style of [illegible] "The Universal Safety Match"—manufactured without phosphorus or sulphur, inodorous and [illegible] only by contact with a chemical preparation spread on the bottom of each box. No amount of friction on anything else will induce them to burn. They are just the thing for families with a great number of children, rats and other vermin. Mr. A B Richardson is agent for the English manufacturers, and has on hand a few cases.

OREGON APPLES IN SAN FRANCISCO.—March 2d, Oregon [illegible] are selling in San Francisco at the following [illegible] Newtown Pippins, $3 50@4 per box, R. I. Greening, $2@3 per box; Rox. Russett, $3@3 50 per box; Baldwin, $3 per box; W W Pearmain, $2 75@3 25 per box; L. N. Pippin, $3@3 50 per box, Swaar, $3@3 25 per box; Wine Sap, $ 50@3 per box; Golden Russett, [illegible] per box." On the same day apples sent per [illegible] were jobbing at $1 50@3 per box.

LINSEED OIL COMPANY.—A company has just been organized at Oregon City, for the manufacture of linseed oil. We are not advised as to the names of the incorporators, but we are informed that articles of incorporation have been filed. Oregon City is really becoming famous for its [illegible] factures.

POLICE COURT.—Patrick Downey, who is a frequenter of the police court, was up yesterday morning on charge of being drunk and lying on the sidewalk. Keeping him in jail over night, he appeared to be sober and was permitted to go.

[illegible] PRODUCE.—Arrived per Alert Wednesday March 6th 4 coops chickens, 505 qr sks flour [illegible] produce, 238 boxes apples, 2 cases woolen goods, [illegible], 3 pkgs bedsteads 25 pkgs furniture, 1 screw, [illegible] 1 bale furs, 400 sks oats, 1 hf bbls produce.

[illegible] RETURNING.—Among the passengers returning by the Ajax, last evening, were J W P Huntington, Supt. Indian Affairs, with his family, C N Terry of Salem and quite a number of Portlanders who have been below a considerable part of the winter.

PERIODICAL FAVORS.—We are indebted to Mr S J McCormick for a large bundle of the latest eastern newspapers and pictorials. Those in want of eastern publications should call on Mr. McCormick to-day.

STEAMER FOR HARRISBURG.—The P. T. Co will start a steamer from Oregon City for Harrisburg on Friday morning, March 8th after the arrival of the Portland boat.

THE CONTINENTAL.—A telegram of last evening states that the Continental will sail from San Francisco for Portland, on Friday, the 8th.

OREGON FLOUR IN SAN FRANCISCO.—The Alta of March 2d, quotes Oregon superfine and extra flour in quarter sacks jobbing at $4 [illegible]@5 per bbl.

DISPOSED OF.—The trotting horse "Fly by Night" formerly owned in this city was disposed of at raffle in San Francisco, on the 2d inst.

AT OLYMPIA.—Gov Steele arrived by the Revenue Cutter Lincoln at Olympia, on Thursday the 28th ult.

HAMS.—A lot of Oregon choice hams sent down on the Ajax, found quick sales at 25 cents per pound.

GOOD ADVICE.—For a list of well fitting and fashionable clothing and gents' furnishing goods of every description, go to Harman Bros, 115 Front street, formerly City of Paris Store.

Don't fail to procure Mrs Winslow's Soothing Syrup for children teething. It has been used for thirty years with never-failing safety and success by millions of mothers for their children. It corrects acidity of the stomach relieves wind colic, regulates the bowels and gives rest, health and comfort to mother and child. Thirty five cents a bottle. Offices, No 215 Fulton street New York, and No. 205 High Holborn London England. Hostetter Smith & Dean; Agents for the Pacific coast.

HOW TO SAVE MONEY.—We know of no better way to save money than to re-color garments and thus make them practically as good as new. This can be done by using the celebrated FAMILY DYE COLORS of Howe & Stevens, which are equal to the best French and ten times as cheap and convenient. Sold by Smith & Davis

Are you aware that the premonitories of Consumption are Coughs Colds, Bronchitis, Pains in the side and chest, difficulties of breathing &c. If you permit these symptoms to run on tuberkles will be the result, and end in Consumption. Now if you want to cure these diseases use ALLEN'S LUNG BALSAM without delay. PERRY DAVIS' PAIN KILLER is really a valuable medicament and unlike most of the patented articles of the day, is used by many physicians. Manufactory Established in June, 1851.
STEAM POWER, NOS 623 AND 621 FRONT ST

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE. GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the interior a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark seek to deceive the public palming upon them their inferior productions for the genuine G VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless buyers should be forewarned, and placed on their guard against this practice.

## ADDITIONAL NEWS BY TELEGRAPH.

CHICAGO, Feb 27.—The Kentucky Union Convention at Frankfort, yesterday, eighty-six counties represented, nominated Sidney Barns for Governor, and John Mason Brown for Lieutenant Governor.

The Supreme Court of Tennessee has decided that notes of the Bank of Tennessee could not be received in payment of Taxes due the State. The decision has caused a decline of the notes to 25 cents.

COLUMBUS, Ohio, Feb. 26.—In the House, to-day, Mr. Boynton's resolution to strike out the word "white" from the Constitution, after a lengthy debate, was lost—ayes, 26; noes, 60.

The second section of the Army Appropriation bill, as passed, declares that the headquarters of the General of the army shall be at Washington, and all orders of war must be issued through him. He shall not be removed, suspended, relieved, or ordered elsewhere, except on request, with the consent of the Senate. Any orders concerning the army, issued without his approval, shall be null and void; and any officer issuing such orders shall be guilty of misdemeanor. Gen. Grant was on the floor of the Senate when the bill was under consideration. It is said the President will veto the bill, on account of the above sections.

The Senate, last evening, passed the bill to pay the Atlantic and Pacific mail steamships $23,600 on their mail contract.

The House, yesterday, after a protracted struggle, passed the Fortification appropriation bill, but cut it down fifty per cent.

General Hazen has addressed a letter from Jefferson Barracks to Representative Bidwell, who had requested a report of his observation of affairs in Utah while there in October last. He says: "I think it important that the Government should, in some way, strengthen its authority in that Territory, and at the same time increase by every means possible our friendly relations with these people, and elevate their intelligence till they come to feel that they are part of the United States and we are their friends. Harsh measures will only consolidate them. The lands of the Territory are still held by the Government. If it is the intention to give the actual title to Mormon occupants, on the same grounds as other emigrants—and I do not see how we can do less—a land office should be opened there, and Commissioners appointed to settle claims."

NEW YORK, Feb. 28.—Advices from the South state that it is supposed there will be twice as many white voters in Virginia as black. The crops promise well, the only drawback being the scarcity of negroes.

The Supreme Court of Alabama has decided that the emancipation proclamation of Mr. Lincoln did not take effect in that State until May, 1865.

The *Herald's* special says information has been received by the Secretary of the Treasury that steps have been taken towards forming an organization among the merchants of England for the purpose of smuggling goods into the United States through Canada, if the high tariff becomes a law.

BALTIMORE, Feb. 28.—The Radical State Convention, yesterday, was numerously attended. Dr. Ohr, of Allegheney county, presided. Strong resolutions were adopted for universal suffrage. The Conservatives threaten Congressional interference, if the plan of calling a State Constitutional Convention is carried out, except on the broad platform of universal suffrage. A mass meeting last night was crowded. Speeches were made by Horace Maynard, of Tennessee; Columbus Delano, of Ohio, and others, all in favor of negro suffrage. The President was denounced, and the course of Congress commended.

### Reconstruction

NEW YORK, Feb. 27.—The *Times* quotes the opinions of leading Democratic papers of the country acquiescing in the action of Congress on reconstruction, as the only course. It quotes from the Southern journals, and shows that they are divided.

The Richmond *Examiner* is alone in advising the action of the Southern States in accordance with the Congressional plan. The only prominent Southern politicians urging acceptance are Governors Orr, Brown, and Pierpont.

### South America.

NEW YORK, March 5.—The *Henry Chauncey* has arrived from Aspinwall. The *Times'* Panama correspondent says it is reported that Corazo, President of Bolivia, was killed by his own body guard while traveling in the interior. There is a revolution in Carthagena in consequence.

The ship of war *Pallas* had arrived at Valparaiso, from the river La Platte. She brings the intelligence that the Spanish fleet was at Montevedio, preparing to proceed to the Pacific. Admiral Nunez had issued a proclamation to the Spanish residents on the river La Platte. The Republics are calling for volunteers for an expedition against the Pacific Republics. The news created little impression in Chile.

The demand for wheat is active and tonnage scarce.

CALLAO, Feb. 14.—To-morrow Congress assembles and Prado will resign the Dictatorship. The Government is eagerly doing all in its power towards having the fleet in the highest state of efficiency. Gas was introduced at Callao two or three days ago.

The National Navigation Company had obtained power to increase their capital to nominally $2,000,000. The sale of shares was dull.

A series of mutinies occurred among the troops at Traxillo on the 13th of February. The whole garrison rose upon the officers, killing and wounding several. About 130 returned to duty and 250 fled to the mountains. The Colonel commanding was dangerously wounded. Several deserters had subsequently entered Payone and robbed a number of houses, killing several woman and a boy. Eighty inhabitants of Payona are in pursuit.

KINGSTON, C. W., March 4.—Eighteen Fenian convicts whose sentences were recently commuted to twenty years' imprisonment, have arrived and were immediately conveyed to the Penitentiary.

HAS located in Portland, in CARTER'S NEW BUILDING, for the permanent cure of all private diseases, such as syphilis, gonorrhea, gleet, strictures &c. He also calls the attention of those suffering with

DISEASES OF THE EYES

to call at his office and be at once restored. Surgical operations SKILFULLY performed on the EYES for Blind, cataract, strabismus or cross eyes

Below are some of the many testimonials:

This is to certify that I, John B. Jodwan, was blind for over nine years, and I tried all means of a cure, and and many doctors, and all of no effect, and I spent all the means I had. Finally, I had to become a county charge, and when I was taken to Dr. G. W. Brown, and stated my case to him, and misfortune, he at once commenced to treat my eyes, and now I am well, and commend all those that are suffering with disease of the eyes to call on Dr. G. W. Brown. The reason why I do this is to let suffering humanity know where they can be cured.

J. B. JODWAN.

STATE OF OREGON, Marion County, ss.—Subscribed and sworn to before me this 22d day of November, 1866.

SETH R. HAMMER, Notary Public.

SATURDAY, Feb. 10, 1866.

This is to certify that my daughter was almost blind for over seven years, and was doctored by other physicians without obtaining any relief, when finally I took her to Dr. G. W. Brown, who examined her case, and at once began to give her treatment, and her sight has been entirely restored. I do this to let those who are suffering with diseases of the eyes know where they can obtain a cure. It has been three years since her eyes were cured, and they are yet sound.

THOMAS LIVINGSTON,
Deer Creek Precinct, Douglas county, Oregon.

SALEM, July 21, 1866.

This is to certify that I was blind for over four months, and almost blind for one year and a half; I tried several eye doctors but received no benefit; I had almost given my case up as hopeless when fortunately I heard of Dr. G. W. Brown, now of Salem. I was induced to try him; he performed a surgical operation on my eyes, and gave me treatment. I soon began to recover, and in a short time I was perfectly cured. I do this in justice to one who rescued me from a fate worse than death, and also for the benefit of those who are laboring under similar afflictions that they may know where they can get relief. It is now about eight months since my eyes were cured and they still remain good. I can see to read the finest print without difficulty, and my eyes can bear the strongest light without pain.

ALEXANDER MITCHELL.

Subscribed and sworn to before me this the 21st day of July, A. D. 1866.

SETH R. HAMMER,
dec6dtf Notary Public.

## DR. HENLEY'S

## Fountain of Life!

THE

GREAT BLOOD PURIFIER!

IN EVERY PROGRESSIVE SCIENCE PERIODS ARrive when a new direction is imparted to its course. These epochs proceed from discovery of new facts shedding a light which changes the whole aspect of the science. The present is an epoch of this kind, and this Great Remedy, now offered to the public, in connection with the theory on which it is based, is destined to effect an entire revolution in the treatment of the diseases of

## SCROFULA AND KING'S EVIL!

by eradicating the disease entirely from the blood. The FOUNTAIN OF LIFE is composed entirely of vegetable extracts; it contains no Mercury or other mineral substance.

The Proprietor and Discoverer of this Sovereign Remedy CHALLENGES THE WORLD to furnish anything, from the days of Esculapius down to the present time, in the arcana of Medical Science, which can vie with or excel the intrinsic properties of this Great Blood Purifier. Its value has been tested with the happiest effect in the most obstinate cases of Scrofula, that baffled the skill of the most eminent physicians in the world. No matter, what form the dreadful disease of SCROFULA and KING'S EVIL may have assumed, it can in no way be more safely and certainly arrested in its progress than by HENLEY'S GREAT BLOOD PURIFIER. Thousands have been swept into their graves, who had they made a timely use of the FOUNTAIN OF LIFE, might now be enjoying the blessings of life and health. It requires an article of real merit and intrinsic value to sustain itself. During the stern ordeal of public experiment the FOUNTAIN OF LIFE has stood the test trial, and not been found wanting.

Dr. HENLEY guarantees to CURE any case of SCROFULA or KING'S EVIL in the world, and eradicate the disease entirely from the system, or no charge made—provided they will secure him his pay when they are cured.

FOR REFERENCE:

I would refer you to L. L. Peck, of Portland, Oregon, and numbers of others, as to what a miraculous effect it had in a short time, in cases that had baffled the skill of physicians for years.

He has secured the services of "Charley" (known to be the best cook in Salem, and one of the best in the whole country) and other competent persons to manage the culinary department, and is resolved to set as good a table as can be found anywhere—not in clap-trap, pomp and show, flummery and fine furniture, but in an abundant supply of the very best the market affords.

His Bar-room will be kept warmed and lighted, and well supplied with newspapers, periodicals and other suitable reading matter, and kept in a manner which will make it an agreeable resort.

In short, he intends making an effort to please ALL who stop at the BENNETT HOUSE. OF BALTIMORE,

ARE ACKNOWLEDGED BY THE San Francisco jobbing trade to be beyond the best that come to this market. That

THEIR EXCELLENCE IS NOT IM

Any one who has tried them will admit, and the secret of their superiority, lies in the extreme immense expense lavished upon their preparation. Oyster is opened by hand with the knife with regard to the preservation of the Liquor, by all the original flavor is retained. Contrast with the one usually pursued of opening the bulk by steaming, by which means the native lost, and a manufactured one is substituted, and son for the actual superiority of this brand is apparent.

For sale, plain and fresh, in one and two

## TO THE UNFORTUNATE

NEW REMEDIES, NEW RE

Dr. Gibbon's Dispensary

**616** KEARNEY STREET NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

**Horrible Diseases.**

How many thousands of persons, both male and female, are there who are suffering the consequences from the effects of secret indulgence, or absorbed into the system! Look at their blotted and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of life or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let guardians, friends, attend to those who are suffering any of those horrible life-destroying maladies they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, who has made private disease his especial study for years, is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the pretended doctors who infest all cities, professing to succeed in curing all diseases in a few days, deceiving the public by using the names of eminent physicians of Europe and other places. Be therefore cautious; make strict inquiry, or you may fall into the hands of charlatans.

**Seminal Weakness.**

Seminal Emissions, the consequence of self pollution, solitary vice, or depraved sexual indulgence, practiced by the youth of both sexes to an almost alarming extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confusion of ideas, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief is not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will forfeit Five Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by any of the San Francisco quacks.

DOCTOR GIBBON is responsible, and will give each patient a written instrument, binding him to effect a radical and permanent cure, or make no charge.

Persons at a distance may be CURED AT HOME by addressing a letter to Doctor Gibbon, stating their symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in a registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 1957. Consultations FREE.

**Prevention Better than Cure.**

The newly invented Patent French Safe, a preventive against Diseases and Pregnancy, sent by mail. Price $2. Address DR. J. F. GIBBON, 616 Kearney St., cor. Commercial, San Francisco. Post

Correspondents will please inform Dr. G. that they read his advertisement in the *Daily* (or *Weekly Oregonian*, as the case may be.)
